

Dear Hiring Manager,

As an enthusiastic graduate from North South University, I came across the post of **JavaScript Application Developer**. With a successful journey of 4 years at university and have some experience in JavaScript, I believe I am ready to take the challenge.

I believe I can contribute through:

1. The knowledge gained from various programming languages. I am Comfortable in JavaScript, SQL, NoSQL, PHP
2. Experience in IoT-based projects.
3. Knowledge about git, embedded system, web application (Node.js, Express, Laravel, React, AngularJS, MySQL, MongoDB, Vue.js), mobile platform (React Native).

Additionally, I am a true believer in the 'Never Give Up', 'Learning', and 'Working Hard' attitude. With all of these, I would be happy to contribute to The Company.

I attached below my portfolio-
